

COMPANY PROFILE

Connecting China to Global Markets.

Trading, sourcing and logistics coordination from Guangzhou to your market.

Guangzhou Sea Flow Trading Co., Limited

CHINA SOURCING | PROCUREMENT | QUALITY CONTROL | LOGISTICS

Close to suppliers. Connected to your market.

SeafLOW helps businesses source products from China and coordinate the work that turns a requirement into a shipment. Based in Guangzhou, we connect supplier search, purchasing, quality checks and logistics through one point of communication.

Established on 7 July 2025, Guangzhou Sea Flow Trading Co., Limited works close to China's manufacturing and wholesale markets. China-Africa trade is a key focus, alongside other international destinations. Our approach starts with understanding the product, quantity, budget, quality expectations and delivery priorities behind each order.

GUANGZHOU, CHINA

Local presence

Established

CHINA-AFRICA

A core trade focus

Our mission

Make sourcing from China clearer and more practical through supplier coordination, transparent communication and a purchasing plan built around the customer's requirements.

Our vision

Build lasting trading relationships that give businesses dependable access to China's products, suppliers and global markets.

Reliability in relationships. Clarity in communication. Care at every stage.

Every stage, connected.

Choose the support your order needs, from a focused supplier search to coordination across purchasing and shipment.

01

Trading & sourcing

We translate your brief into a supplier search, compare suitable products and support commercial discussions. OEM, ODM and customised sourcing can be coordinated around your specifications.

- Factory and supplier identification
- Product and price comparisons
- OEM / ODM coordination

02

Procurement

We help keep purchasing requirements aligned as an order moves forward, coordinating supplier communication, commercial terms and production follow-up.

- Price negotiation support
- Purchase and order coordination
- Production progress follow-up

03

Quality & preparation

Clear specifications guide the checks before shipment. We coordinate product inspection, packaging requirements and the documentation needed to prepare your goods.

- Product inspection coordination
- Packaging and labelling requirements
- Documentation and shipment preparation

04

Logistics & shipping

We coordinate sea and air freight options around cargo volume, destination and delivery priorities, including consolidation and export preparation.

- Sea and air freight coordination
- Cargo consolidation
- Export and delivery coordination

By sea. By air. Coordinated from China.

Illustrative air-cargo operations.

Sea freight

Container shipping and cargo consolidation connect supplier orders with your destination market. We coordinate shipment preparation, export documentation and logistics arrangements around the order.

Air freight

For orders where delivery timing is a priority, we coordinate air-cargo options, shipment documentation and handover arrangements. The approach is agreed around the goods, destination and schedule.

One point of coordination between purchasing, cargo readiness and the onward journey.

Built around your requirements.

From standard products to customised orders, each sourcing brief defines the specifications, quantity and destination.

What we source

01 Construction materials

08 Agricultural equipment

10 Customised products

How we work

01

Define the requirement

Product specification, quantity, budget, quality expectations and delivery timing.

02

Find and compare suppliers

Supplier search, product comparisons and commercial discussions.

03

Coordinate the order

Purchasing, production follow-up and clear supplier communication.

04

Check and prepare

Inspection coordination, packaging and shipment documentation.

05

Arrange the shipment

Consolidation, export preparation and delivery coordination.

LET'S START WITH YOUR REQUIREMENT

What can we source for you?

Send your product details, quantity, destination and target delivery date. We will discuss the next steps for your sourcing and shipment.
